Home - Team-Based Learning Collaborative

Collaborative learning refers to a strategy in which students of different performance levels work together in small groups toward a common goal. Students are responsible for each other's learning as well as their own (Gokhale, 1995). The strategy of online collaborative learning moves collaborative learning from face-to-face to online.

Online Collaborative Learning Theory - Theoretical Models ...

Innovative learning environments (ILEs) are changing the ways that teachers teach, plan, and inquire into teaching together, but regardless of the teaching environment, effective collaboration requires a shift of thinking from "me" to "we" and from "my learners" to "our learners".

Collaborative teaching | / Innovative learning ...

INTRODUCTION. Students may learn a lot from working in groups, but the learning potential of collaboration is underused in practice (Johnson et al., 2007), particularly in science education (Nokes-Malach and Richey, 2015). Collaborative, cooperative, and team-based learning are usually considered to represent the same concept, although they are sometimes defined differently (Kirschner, 2001 ...
