Make sure the remote batteries (AA) are installed and your TV and Xfinity X1 TV Box are powered on. Also, set the TV input to correspond with your Xfinity X1 TV Box. Press and hold the Xfinity and Info(i) buttons together for five seconds. Wait for the remote light to change from red to green.

Comcast Xfinity XR15 - URC Support

@artimar Yeah I've separated the bands, rebooted the gateway, unplugged the gateway, unplugged the printer, and have tried to reserve an ip address within range on the gateway itself but still no dice. Epson hasn't provided anything other to blame Xfinity and Xfinity just keeps saying the same thing which I've done several times. In my situation my printer has an ip address that is not in range ...

Got new Xfinity modem and now can't print over wifi with ...

The Best WiFi Extender for Xfinity Internet Service ...

That sucker is turned on by default and Xfinity is using your electricity to power up a public Xfinity hotspot. Totally lame, I killed it ASAP in the Xfinity My Account application as soon as I realized that. Next thing I did with the rental was turn off the WiFi by switching the unit into Bridge mode. Just some advice for people still renting.
